13. QUESTIONS AND COMPLAINTS
14. ENDING
15. LAW AND LANGUAGE

---

1. WHO WE ARE

R2O Reveal is published by ROUTE2OPEN sp. z o.o., ul. Austriacka 4, 64-100 Leszno, Poland, entered in the National Court Register (KRS) under number 0000932849 by the District Court Poznań – Nowe Miasto i Wilda in Poznań, VIII Commercial Division; NIP 7831846387, REGON 520458535, share capital PLN 5,000. route2open is part of STORDIS Group. Contact: info@route2open.com.

2. WHAT R2O REVEAL IS

A free educational app that shows network hardware in 3D and in augmented reality (AR): racks, switches, access points and laboratories. No account, no ads, no purchases. The app works without internet access.

3. WHAT YOU NEED

An Android phone or tablet with Android 7.0 or later, a 64-bit processor and OpenGL ES 3.0. For AR: a device supported by Google Play Services for AR (ARCore), a camera and free space around you. A microphone only if you add your commentary to a recording. Free storage for your recordings.

4. YOUR LICENCE

We grant you a free, non-exclusive, non-transferable licence to install R2O Reveal and to use it for learning and for showing it to others free of charge: at home, at school or university and at work. You may record videos and take screenshots in the app and share them, also on social media; do not present them as a manufacturer's material or as an endorsement.

Paid training, trade fairs and other commercial events need our written consent (info@route2open.com).

You may not copy, extract or reuse the app's models, textures, sounds or texts outside the app; sell, rent or distribute the app or a changed version of it; or remove its copyright notices. Install it only from Google Play or the route2open community. Decompiling is allowed only where the law allows it.

5. EDUCATIONAL CONTENT

The exhibits are simplified teaching models, not manufacturer drawings. Specifications, power budgets, readings and scenarios are illustrative and partly averaged: they are not product specifications, measurements or an offer. Product, chip and protocol names identify the subjects being taught and belong to their owners; no endorsement is implied.

6. SAFETY IN AR

AR places equipment at life size in your space; the data centre aisle needs about 4 × 3 m of floor. Keep the area clear, watch your surroundings and do not use AR while walking in traffic, on stairs or near hazards. Children should use the app with an adult. The phone can get warm in AR and while recording; the app then lowers its quality.

7. YOUR RECORDINGS

Videos, screenshots and reports stay on your device until you share them. You are responsible for what and whom you record: ask people before you film them, respect the rules of the place (many data centres and fairs do not allow filming) and do not record confidential information.

8. GOOGLE PLAY SERVICES FOR AR (ARCORE)

R2O Reveal includes ARCore functionality provided by Google. Use of ARCore is subject to the then-current Google Terms of Service (policies.google.com/terms) and Google Privacy Policy (google.com/policies/privacy). This application runs on Google Play Services for AR (ARCore), which is provided by Google and governed by the Google Privacy Policy.

9. PRIVACY

R2O Reveal has no account, no ads and no analytics of its own, and no internet access. Details: the Privacy Policy (Settings › About R2O Reveal, and on route2open.com).

10. THIRD-PARTY SOFTWARE

R2O Reveal uses open-source components under their own licences: Settings › About R2O Reveal › Licences.

11. UPDATES AND CHANGES

We may update, change or withdraw the app. We may change these Terms; the date above shows the version in force, and an updated app tells you when they have changed. If you do not accept a new version, you can stop using the app and uninstall it.

12. LIABILITY

The app is free and provided as it is, within the limits the law allows. Nothing in these Terms limits our liability for damage caused intentionally or by gross negligence or for personal injury, or the rights you have as a consumer under mandatory law.

13. QUESTIONS AND COMPLAINTS

Write to info@route2open.com and describe the problem (Report a Problem in the app helps us find it). We reply within 14 days. Consumers can also turn to a consumer ombudsman; information on out-of-court dispute resolution: uokik.gov.pl.

14. ENDING

You can stop using R2O Reveal at any time by uninstalling it. Your licence ends if you break these Terms.

15. LAW AND LANGUAGE

Polish law applies; as a consumer you keep the protection of the mandatory law of the country where you live. Disputes go to the courts competent under the law. These Terms are published in Polish and English on route2open.com; the Polish version is the original.
